## A BIT ABOUT ME

---

When it comes to personal branding, I take a great amount of pride in capturing your best natural features, your strength, and your essence. My approach to photography is natural and relationship-oriented. I love to get to know my clients long before putting them in front of the lens. I want to hear all about your story, the images will flow from there. My goal is to create images that say something meaningful about you. Are you an actor? an entrepreneur? a musician? A business professional?. Do you a want more relaxed vibe or more professional? With over a decade of experience capturing people and branding images, I feel confident in my ability to craft a series of images that truly say something about who you are and your goals so you can lead with your best foot forward.

THE PROCESS

---

## HOW THIS WORKS

It all begins with a free consultation, which at your convenience can be done in-person, over the phone, or on video chat. I'd love to hear your thoughts and goals for your headshot session as well as the purpose of your images so I can recommend styling, makeup ideas and location.

Once you've decided that I am the right photographer for your branding-shots, we'll get started by choosing a date for your session. The day of your shoot, I generally recommend blocking out 3-4 hours if you want to have hair and makeup professionally done. If you don't then all you need to do is show up and I'll do the rest.

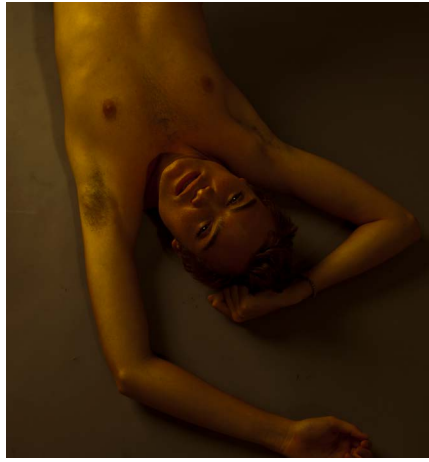

Actual sessions

generally last about 1 hour for one to two people with a few locations.

(although we can include more time for add-on looks / styles if you need).

Once we've had our session, it takes 3 days to get your online gallery up. You can expect to have 20-30 images per person (at the least) to choose from, in your password-protected online gallery. You can simply mark your favourites from this link they will then get retouched and sent to you in hi res and lo res format.

## INVESTMENT

---

A good branding photographer isn't an expense – it's the best investment you can make. Your photos should tell the story of your career; where you've been and where you want to go.

I like to keep my pricing simple, so I offer two standard collections that you may add on to as needed.

### SIMPLE

---

\$350

- 1–1.5 hours of photography (one person)
- Private online image gallery to select your picks from
